EIGHT PAGES TODAY

LOCOMOTIVES IN A SMASH-UP

Edward Griswald, of Wabash, Big
Four Engineer, Seriously Scalded
in Wreck Wednesday Night.

2 ENGINES COME TOGETHER.

C. E. Kramer of Anderson, Fireman,
Badly Bruised—Wreckage Cleared
Away and Traffic Restored.

Edward Griswald of Wabash, Big
Four engineer, was probably fatal-
ly scalded, and C. E. Kramer of
Anderson was seriously hurt when a
Big Four and C. I. & W. engine,
both running light, came together
at the intersection of the two rail-
roads yesterday evening about 5:30
o'clock.

Mr. Griswald's condition was re-
ported to show no improvement this
afternoon. The fact that he has a
weak heart is said to be causing
members of his family, who are at
his bedside, some concern. Attend-
ing physicians wanted to move him
to an Indianapolis hospital, but his
wife objected.

Engineer Payne and his fireman,
J. E. McClintock, both of Indianap-
olis, escaped being crushed by
leaping from the C. I. & W. engine.
McClintock had a narrow escape
from death, however, because he
had gripped the bar at the left side
of the cab and was ready to jump
when the Big Four engine pulled the
other around at an angle of forty-
five degrees. He jerked his hand
loose, leaving his glove which
caught as the left side of the cab
was crushed against the tank, and
jumped out the other side with the
engineer.

Traffic was restored on the C. I.
& W. within two and a half hours
by moving the switch, which paral-
lels the main track where the acci-
dent happened, over a few feet, so
that passing trains could clear the
wreckage and get back on the main
track.

Trains were going through on the
Big Four before noon. The C. I.
& W. engine was lifted back on the
track and pulled back from the
scene of the accident and the Big
Four engine was lifted to one side
so the track could be relaid and
give the Big Four and C. I. & W.
wreck trains a chance to get close
enough to the engine to place it
back on the tracks. It was said
the Big Four engine was not so
badly damaged but that it could be
set on the trucks and hauled to the
shops for repairs.

Several men working in the Char-
les E. Francis company's factory,
about one hundred and fifty feet
from the crossing, witnessed the
accident. A number of them de-
clared that the Big Four engine was
running fast, and no one was found
who recalled hearing it whistle for
the crossing.

Engineer Payne, said that he
saw the Big Four engine, and
seeing or hearing nothing, had start-
ed up again when he saw the en-
gine bearing down from the north.
It was then too late to stop he said.
The position in which the Big Four
engine was lying indicated that it
was going at a much greater speed
because its momentum carried it
forward several feet before it slowly
toppled over, pulling the C. I. & W.
engine at an angle of forty-five
degrees with the track.

The whistle on the C. I. & W. en-
gine was cut loose and it blew for
a few minutes before the engineer
could check it. The noise from the
whistle together with that of the
steam escaping from the Big Four
engine, made a perfect din which
was heard for several blocks.

People living in the vicinity har-
ried to the scene of the accident
and found Engineer Griswald and
continued on Page 2

AIRMEN PATROLLING BORDER

Five Ships Fly Along Rio Grande
and Report Situation Quiet

(By United Press.)

El Paso, Texas, June 19.—Five
American air planes flew over the
border counties for a distance of
250 miles east and west of El Paso
today and reported the situation
quiet.

Presence of 70 Villistas opposite
Sabens, Texas, which resulted in
two companies of the 19th Infan-
try being rushed there yesterday to
reinforce the cavalry patrol, was
stated at Fort Bliss not to be of
no importance. The airmen were
ordered not to fly over Mexican
soil.

SUES FOR \$700 SAID TO BE DUE AS COMMISSION

Jesse Guire Files Suit Against Ci-
cero M. Hackleman, Alleging
He Had a Contract

FARM IS SOLD BY THE OWNER

Jesse W. Guire, a local real es-
tate agent, has filed suit in the cir-
cuit court against Cicero M. Hack-
leman, in which he demands \$700
commission alleged due him from
the sale of the defendant's farm.

The complaint contains a copy of
the written contract in which the
defendant is said to have agreed to
allow the plaintiff to sell his farm.
Guire declares he solicited several
prospective buyers and took them to
see the farm, and that he spent
large sums of money in advertising
it. He says that he was never no-
tified either verbally or in writing
that the contract had been cancell-
ed.

The complaint avers that Hack-
leman authorized him on June 6 to
sell the farm for \$35,000 and that
when he made arrangements with
Albert L. Winship to buy it June 16
for that sum, the defendant in-
formed him that he had sold the
farm to Francis Fore for \$35,000
prior to June 16. Guire alleges that
he solicited Fore as well as E. H.
Payne, who has an interest in the
contract entered into by Fore.

WILD RUMORS OF CONNERSVILLE FIRE

Small Frame Building Used for
Storage by Lexington Auto-
mobile Co. is Destroyed

PROPERTY LOSS IS SMALL.

The destruction of a frame build-
ing belonging to the Lexington Au-
tomobile company of Connersville,
last night, gave rise to a report
here today that two of the large
buildings belonging to the concern
had burned down, having been set
on fire by strikers. The fact that
one Connersville factory has had
labor trouble lent color to the ru-
mor.

A dispatch from Connersville to-
day says that only a frame build-
ing contained oil, paper and boxes.
The origin of the fire, which had a
good start when it was discovered,
is not known. The structure was
located northwest of the main Lex-
ington building, in the center of the
factory district, and the fire caused
a great lot of excitement, but no
other buildings caught fire. The
property loss was small.

ELKS PICK BEDFORD

Bedford, Ind., June 19.—At
the session of the state conference
of the B. P. O. E. today, Bedford
was chosen as the 1920 convention
place.

ARMY WORM HAS INVADED COUNTY

Pest Found in Isolated Places,
Which Indicates They Do Not
Travel in Straight Line

HATCH OUT ON THE FARMS

Farmers Successfully Combat
Worms by Using Solutions Con-
taining Deadly Poisons

The army worm has reached Rush
county. Several farms in different
sections have already been invaded.
The Claude Hunt farm east of the
city was one of them and the at-
tempts of farmers in that vicinity
have been most successful as they
report that the greater number of
the pests have been killed.

They were also found on the
Walter Norris farm near Orange
but from the reports the efforts in
that section have also been reward-
ed as the numbers are not so great
as formerly. Several farms near
Mays have also been invaded and
steps are being taken to exterminate
them in that section also. The bran,
molasses and poison solution is be-
ing used in the Mays district.

County Agent Detrick stated yester-
day evening that he thought that
with cooperation on the part of the
farmers, the worms would not do a
great deal of damage although
their numbers are great.

Henry county has organized an
efficient machine to combat the
pests there. The townships are or-
ganized and in case one township
finds that they cannot combat the
worms effectively, they are at lib-
erty to call on another township for
help. It is the opinion of farmers
in that county that the worms do
not travel as was first thought but
hatch out on the farm and travel
from one field to another.

The fields in this county that have
been invaded by the worm are being
surrounded by ditches and into these
ditches deadly poisons are being
placed such as paris green, arsenic
of lead, quick lime, gas lime,
coal oil and gasoline. Yet, despite
all these efforts, the worms contin-
ue to thrive and they are apparently
being hatched out faster than they
are being killed.

To support the theory that the
worms do not travel great distances,
it is pointed out that the worms on
different farms in this county were
several miles apart and on the land
between these farms no worms are
to be found. It is also stated that
the worm does not do the greatest
damage during the heat of the day
but in the cool of the evening and at
night.

One of the worms taken from the
Bert Norris farm of near Orange
was on display in the window of
the Hargrove and Mullin's drug store
today. The space in front of the
window was crowded during the
noon hour as many are curious to
know the nature of this worm. The
one on display was of a brownish
hue with light stripes running
lengthwise of its body. It resembles
the cabbage worm, although not
quite as large.

IS AT CAMP JACKSON, S. C.

William Carter Arrives From Ser-
vice Overseas

Mrs. William Carter received
word yesterday afternoon that her
husband, William Carter, had ar-
rived at Camp Jackson, South Car-
olina, from overseas. Mr. Carter
had been overseas for almost a
year with the 80th Division, 34th
Field Artillery. He expects to be
discharged within a short time. His
wife, Mrs. Carter, also of this county,
was with the same division.

DELEGATES ALL FAVOR REJECTION

Submit Such a Report to German
Cabinet and Refuse to Take Part
in Signing Treaty.

NEW CABINET MAY BE FORMED

Paper Says Plan is Discussed for
Assembly to Dissolve and Leave
Country to Anarchy

(By United Press.)

Berlin, June 19.—A Berlin paper
declared that a plan is being dis-
cussed for President Ebert and cab-
inet to resign and the national as-
sembly to dissolve, leaving Germany
to absolute anarchy.

"Whoever heretofore has said the
peace terms are unacceptable must
repeat it since nothing has been
changed," said the "Papierblatt" to-
day. "We refuse the terms because
we insist on self-determination and
full sovereignty and oppose the na-
tions' ideals of revenge."

Paris, June 19.—Every member
of the German peace delegation has
refused to participate in the sign-
ing of the treaty, a Weimar corre-
spondent of a French paper stated
today.

The delegates, he said, have sub-
mitted reports to the German gov-
ernment pointing out the terms are
impossible. Acceptance will place
the nation in a position equally as
bad as not accepting.

The correspondent said that a
movement is under way to form a
new cabinet including Mathias Er-
zberger and Former Minister Noske.

Basle, June 19.—A Weimar cor-
respondent of the Frankfort paper
declared German peace delegates as
unanimously resolved to reject the
peace treaty and submitted the re-
port to the German cabinet. A dis-
patch received this morning stated
that Chancellor Scheidemann, ad-
dressing the peace committee of the
national assembly yesterday, ex-
pressed regret that the allies have
rejected provision for a neutral
court of arbitration.

"They are determined to overwhelm
the Germans with the consequence
of their alleged crimes," Scheide-
mann said. "The assembly and
government faces a most difficult
task but we must not forget the na-
tion is on the eve of very hard times."

Paris, June 19.—The eyes of the
world were focused on the little
town of Weimar today where one of
the most momentous decisions in
history was in the making.

With the allied armies and the
British navy prepared to move sim-
ultaneously upon Germany if they
refused to sign the peace treaty, the
German delegates, cabinet and na-
tional assembly, were gathered at
Weimar debating whether it shall be
peace or war. Their verdict must
be reached before 7 p. m. Monday,
the "zero hour" fixed by the allies
when they submitted their reply to
the German counter proposals at
Versailles.

The British navy, according to
unofficial advices today, has joined
Marshal Foch's forces in resumption
of hostilities if that is the German
decision. Dispatches from British
sources stated the navy has been
put on a war footing and that all
leaves have been revoked. The Brit-
ish dirigibles, R-33 and R-34 were
reported cruising over German
coastal regions as demonstrations
of allied preparedness. Both air-
ships were reported to be heavily
armed for bombardment.

Copenhagen reports the arrival of
British cruisers and destroyers in
the Baltic in addition to the fleet
already operating there. Several
destroyers, the Copenhagen dispatch
stated, were reported to be start-
ing toward the German coast on
a secret mission.

Dispatches from both Weimar and
continued on Page 2

AMERICAN ARMY IS READY

Final Preparations Made to Move if
Ordered to by Foch.

(By United Press.)

Coblentz, June 19.—Final prepa-
rations were being completed today
for the American armies to move
forward Tuesday morning if it is
ordered by Marshal Foch. Some
German units are reported to be
scattered throughout the region im-
mediately in front of the Americans,
but they are believed to be too weak
numerically to give much opposi-
tion. Steps were also being taken to
guard against possible guerrilla
warfare by civilians, but it is
thought they will remain quiet in
case of an allied advance rather
than suffer military consequences.

GRAND JURY CALLED INTO SESSION TODAY

Reason For Meeting of Investiga-
tors is Not Disclosed—Judgment
is Note Suit.

AGREEMENT IN FARLOW CASE.

The grand jury went into session
in the court room on the third floor
of the court house today. The rea-
son for calling the grand jury at this
time was not disclosed. Elmer Cald-
well, whose name was drawn yes-
terday to serve in place of James H.
Alexander of Posey township, who
could not be located, was excused
today, together with Aaron Well-
man, and the names of Daniel M.
Kinney and John T. Bassell of this
city were to take their places. Other
members of the jury are John C.
Wallace of Rushville, George H.
Bell of Center township and Robert
M. Gardner of Walker township.
Mr. Bell is foreman.

Judgment for the plaintiff has
been returned in the suit of a note,
for \$300, of Herbert H. Evans
against Walter Emsweller. Noble C.
McKinley and William Mendenhall.
The judgment was for \$262.20 on
principal and interest of \$30.20, at-
torney fees.

An agreement has been reached in
the case of Washington Farlow
against John D. Farlow, to cancel
a lease, pending the outcome of the
litigation, whereby Perry T. Innis
shall act as trustee and receive half
of the proceeds from the sale of the
wheat which will be threshed on the
plaintiff's farm. The hearing was
continued until August 4.

ARMY WORMS CAUSE A LOSS OF \$250,000

Destroy and Damage 10,000 Acres
of Grain Crops in Madison
County, Agent Estimates

RYE AND TIMOTHY ARE WORST

(By United Press.)

Anderson, June 19.—Army worms
destroyed and damaged 10,000
acres of grain crops in Madison
county, H. Agster, county agricul-
tural agent, estimated today. The
loss, he said, will aggregate \$250,-
000.

Where rye and timothy were at-
tacked the destruction was practi-
cally complete. Wheat shows some
effects of the invasion. Vegetables
with the exception of beans, fall
rapidly before the worms.

The worms starting in the black
soil along the streams, make their
way out into every part of the
county.

Farmers and townsmen are dig-
ging trenches around the infected
places and were killing them with
poison. The agent stated that he thought
the attack will have subsided by
the middle of next week but may
continue until July.

BRINGS HOME TWO "DRESSED FLEAS"

Major E. K. Westhafer, Son of Ar-
lington Minister, Has Unusual
"Trophy" of the War

OBTAINED FROM THE INDIANS

Has Many Rare Experiences With
Them While on Duty as Chief
Surgeon at Fort Sill

Major E. K. Westhafer, former-
ly a Newcastle physician, who was
discharged from the army this week
brought back home with him two
"dressed fleas." It is necessary to
take Major Westhafer's word for it,
because it takes a magnifying glass
to see them. The Courier says that
the fleas are dressed completely,
the male being clothed in a white
suit and white hat, with a blanket
around his shoulders, and the fe-
male in a white silk dress and white
hat.

Major Westhafer is the son of
the Rev. F. M. Westhafer, pastor of
the Arlington Methodist church, and
has visited his father frequently.

Major Westhafer was chief sur-
geon of the hospital at Fort Sill
where he was sent on his return
from overseas, and it was here that
he had many experiences with the
Indians, who he says "dressed" the
fleas which he brought home with
him.

Major Westhafer returned from
France several weeks ago, after
spending six months service with
the medical corps, organizing hospitals
and directing hospital trains. He
left Newcastle as a captain with the
medical detachment of the 151st
Infantry. At Camp Shelby he was
chief sanitary officer of the camp.
He was later transferred to the
152nd Infantry and went overseas
with that organization.

While overseas the 152nd Infan-
try regiment was broken up and he
then organized the surgeon gen-
eral's office in the St. Nazaire vicinity
and was responsible for many re-
creation movements. He also direct-
ed the building of shower baths in
that section for the fighting men.

Upon his return home he was
slated to be discharged, but he re-
quested that he be sent to some hos-
pital in the southwestern states
and was sent to Fort Sill, Okla. The
patients grew fewer each day un-
til the number in the hospital at this
time is only thirty.

While at Fort Sill, Major West-
hafer had many experiences, es-
pecially among the Indians. He,
with his wife, would ride horseback
out to the reservations and find the
Indians very interesting. Major
Westhafer says that some of the
Indians are very wealthy. They
receive large sums of money from
the government and the land they
own produces oil. In the base hos-
pital at Fort Sill were three Indian
privates. One had an income of \$900
a day, another \$700, the third, \$450.
Indian clothing and articles
which show unusual genius, are
very expensive according to the
major. One pair of beaded moccas-
ins costs \$10. Blankets cost from
\$75 to \$100.

Each family has an automobile
and in most cases each member of
the family has a car. In one fam-
ily he spoke of each member had a
large seven passenger Packard.
The children had graduated from
the Haskell university and knew
how to manipulate the auto, but the
father would drive to town (Law-
ton) in an old worn out spring
wagon hitched to a two-broncho
with the harness of old and leather
straps and were killing them with
poison. The major thought that
shell from France as a souvenir
and placed them in the pockets and
are placed to the bottom of the
saddlebag box on top of the saddle
bag. Continued on Page 2

Making the House a Home

Good paint is the finishing touch toward making the house a real home. The well painted house is surely more livable—a source of pride to the owner, and a pleasure to all who see it.

How about your own home? Does it show signs of needing paint? If so, a coat or two of

HANNA'S GREEN SEAL

will restore it to its rightful good looks and add to your own satisfaction as its owner.

Firestone Tires

REO

Here Are Some Figures That Are Eloquent

WITH MORE THAN 100,000 Reo "Speed Wagons" and Passenger Cars in service last year, the factory Parts Department showed a total revenue of \$700,000.

THAT'S ONLY AN AVERAGE of \$7.00 per "Speed Wagon" or Passenger Car paid by Reo owners for replacement parts during the year!

WHEN YOU CONSIDER that, of those 100,000 Reos, only 20 per cent were in their first season, another 25 per cent in their second season, and the rest ranging all the way from 3 to 14 years of age, the figures are still more astonishing.

THEN CONSIDER, TOO, that those replacements included parts injured or broken in major accidents and collisions, as well as ordinary wear, and you will see that the normal replacements must be even lower than that average.

OBVIOUSLY, many Reo owners must have had to buy no replacement parts at all considering a street car collision frequently calls for two or three hundred dollars worth of parts.

AS A MATTER OF FACT, the records show that thousands of Reo owners have yet to buy their first replacement part.

THOSE FIGURES TELL the story of Reo quality—Reo stability—Reo dependability—as no mere words could do.

LOW UPKEEP is a Reo attribute, and it is due mainly to that Reo policy of putting "50 per cent oversize"—the Reo standard factor of safety—in all vital parts, such as axles, driving shafts, bearings, etc.

THE REO OILING SYSTEM is another reason. For a faulty lubricating system is the source of many ruined bearings and parts of great expense. The Reo system is well nigh perfect.

THAT IT PAYS to build that kind of product is best proven by the tremendous over-demand the Reo output always has enjoyed.

AT THIS TIME it is even greater, if possible, than at any previous time.

SO THE ONLY WAY to be at all sure of getting a Reo "Speed Wagon" is to order early—now.

BETTER SEE ABOUT THIS at once. Delay may result in your having to accept your second choice in lieu of a Reo.

BUSSARD GARAGE
RUSHVILLE, INDIANA

said that the fireman was thrown out of the cab by the impact, which was directly behind where he sat. Although he told a disconnected story, it is declared by persons who were at Griswald's bedside that he said he did not jump but crawled out after the engine turned over.

Griswald was removed to the home of Ed Wolters in West Third street where he was under the care of a nurse and several local physicians. He rested well all night.

Griswald's son, whose given name is also Edward, arrived a few hours after the accident from Greensburg, where he was visiting his uncle, Charles Frohman. The boy is eleven years old and was very much disturbed because of his father's condition. Mrs. Griswald came through in an automobile from her home in Wabash and arrived here early this morning. Griswald also has a daughter, fourteen years of age, who was away from home.

The smash-up recalled three other accidents at the same crossing none of them as serious as this one, and a similar collision at the intersection of the C. I. & W. and Pennsylvania railroads thirteen years ago last August. At that time the C. I. & W. depot was almost demolished, but no one was hurt.

Railroad men predicted that there would be an accident like the one last night when the Big Four was given the right-of-way over the crossing a few weeks ago. Previously the L. E. & W., which crosses on the same track as the Big Four, had the right-of-way. Under the old arrangement, the Big Four,

OPPOSES GERMAN WARFARE NAVY IS ON A WAR FOOTING

Socialist Group of Italian Parliament Wants Peace.

(By United Press.)

Rome, June 19.—The socialist group of parliament met today and decided to oppose German warfare. Other political factions met today to determine their course of action in view of the socialist vote.

Unofficial reports were circulated today that Premier Orlando tendered the resignation of the entire cabinet to King Victor Emmanuel on Monday. Further reports stated that the king asked Orlando to avoid any government crisis at this time and the resignations were postponed. The proposed general strike has been averted through opposition of rival labor organizations.

London, June 19.—The British navy is on a war footing and ready to move upon the German coast if the enemy refused to sign the peace treaty, according to an Edinburgh correspondent. All leaves have been cancelled.

The British big dirigible, R. 34, which is prepared to start the trans-Atlantic flight, today cruised along the German Baltic coast, to show the allied preparedness. The sister dirigible, R. 33, left Selvy last night on a similar cruise over Helligoland.

Give it in Time

Every mother knows that coughs and colds, neglected, may lead to the most dread diseases. Croup, bronchitis, pneumonia and consumption often have their beginning in a slight cold.

The wise mother gives **Foley's Honey and Tar** at the first signs of a cough or cold. She knows it stops coughs quickly, puts a soothing, healing coating on an inflamed and tickling throat, and gives a feeling of warmth and comfort to the sufferer.

Mrs. M. E. Schlarb, Ashland, Penn., writes: "Foley's Honey and Tar is the best cough and cold remedy I have ever tried. When my little girl gets a cold on her chest, I give her a few doses, and it relieves her right away."

which has a large majority of the trains, had to stop to throw the switch, whereas the L. E. & W. now has to stop before crossing. Railroad men declare an interlocking switch is the only thing which will prevent similar mishaps.

The Big Four engine had left a string of freight cars north of Rushville and was running down to the water tank. A brakeman was on the rear of the engine to flag the 5:30 passenger train from the south and send it into the switch until the freight pulled by. The brakeman jumped and was not hurt. The northbound passenger was sent back to Louisville and the southbound passenger, due at 6:40, was sent back to Anderson.

The C. I. & W. engine was returning to Indianapolis, having taken a freight train to Cincinnati yesterday morning.

—Ernest Bailey of Greensburg was among the business visitors in this city yesterday afternoon.

—Mr. and Mrs. Sheldon Barnes of near Andersonville motored here this morning on a business visit.

—Harry Richey and John Widders of Milroy motored here yesterday afternoon on a business visit.

—Mr. and Mrs. B. L. Trabue of this city went to Liberty this morning to attend a Bankers convention.

—Mr. and Mrs. Clifton Stamm and family of near New Salem were

visitors in this city yesterday evening.

—C. W. Williams of Ottumwa, Iowa, is visiting his father, A. N. Williams and family of near Arlington.

—Mr. and Mrs. John Andene of Seipio, Indiana, were visitors in this city yesterday evening and this morning.

—H. W. Berger came here this morning from Indianapolis to spend a few days in this city on a business visit.

—Grand M. Carr of Indianapolis a former Rushville man, was in Rushville today looking after business affairs.

—George N. Norris accompanied by his son George of Yazoo City, Mississippi are visiting relatives in this city and county.

—Mr. and Mrs. E. E. Mitchell of Phoenix, Ariz., are here for an extended visit with their daughter, Mrs. Walter E. Frazer.

—Miss Mary Williams is in Indianapolis attending a class reunion held in connection with commencement week at Butler college.

—Dr. R. O. Kennedy of Milroy was a business visitor in this city this morning for a short time. He went from here to Indianapolis.

—Miss Fannie Kenyon has returned to her home in Waseon, Mich., after being the guests of friends in this city for several days.

—The Misses Frances, Margery, Anna and Nora Geraghty motored to Oldenburg, Ind., today to attend the Oldenburg commencement exercises.

—E. R. Casady, Charles A. Mauzy and Louis Mauzy attended the annual convention of Indiana retail dry goods dealers in Indianapolis yesterday.

—Miss Anna Hamlin of New York left today for Hamilton, Ohio, where she will visit for several days, after being the guest of Miss Helen Seudder of this city.

—The Misses Frances and Dorothy Beeraft left this morning for Hamilton, Ohio, where they will visit relatives. From there they will go to Columbus to visit relatives there.

—The Rev. C. S. Black went to Metamora, Ind., this afternoon to deliver the commencement address to the graduates of the high school there. It will be given in the M. E. church at eight o'clock.

STRENGTHENS KIDNEYS— PURIFIES BLOOD

You can't expect weak kidneys to filter the acids and poisons out of your system unless they are given a little help. Don't allow them to become diseased when a little attention now will prevent it. Don't try to cheat nature. As soon as you commence to have backaches, feel nervous and tired, GET BUSY. These are usually warnings that your kidneys are not working properly. Do not delay a minute. Go after the cause of your ailments or you may find yourself in the grip of an incurable disease. GOLD MEDAL HAARLEM OIL capsules will give almost immediate relief from kidney troubles. GOLD MEDAL HAARLEM OIL Capsules will do the work. They are the pure original Haarlem Oil Capsules imported direct from the laboratories in Haarlem, Holland. Ask your druggist for GOLD MEDAL and accept no substitutes. Look for the name GOLD MEDAL on every box. Three sizes, sealed packages. Money refunded if they do not quickly help you.

APPLAUD WATSON'S PICTURE

Friends See Him in Movies Being
Congratulated by Women

The picture of Senator James E. Watson of this city being congratulated by national suffrage leaders over his successful campaign to get the suffrage resolution through the senate, was the signal for prolonged applause at the Princess theater last night. Senator Watson was shown in the Pathe News picture, speaking to women influential in the suffrage movement, and also on the occasion of the signing of the suffrage resolution by Vice-president Marshall. The picture was very realistic and was enjoyed by the audience, because practically every person in Rush county knows and is known by Senator Watson.

LIKES THE ORGANIZATION

H. H. Miller Says W. S. S. Campaign is Doing Fine Here

H. H. Miller, state organizer for the War Savings Stamps campaign, was in Rushville today, interviewing J. H. Scholl, county chairman, and other county officials who are boosting the sale of W. S. S. He expressed great delight at the way the organization was going about its work in this county and said that it apparently was in better shape than any county in the state he had visited. Mr. Miller declared that it was apparent that the people here had the purpose of the campaign well in mind—not necessarily to buy large amounts of stamps, but to save the pennies and buy them regularly, thus inculcating the idea of thrift.

SENATE FOR SUFFRAGE
Harrisburg, Pa., June 19.—The senate of Pennsylvania today passed finally the federal women's suffrage amendment by a vote of 31 to 6.

NEWS OF COLORED FOLKS

Word has been received here of the marriage of Miss Katie Hughes, daughter of Mrs. Rosanna Hughes of this city, and Albert Phillips, of Kalamazoo, Mich., which took place in that city May 19. Mrs. Phillips is well known in this city.

WORK ON BUILDING STARTED

Work was begun again on the business block which is being built in Main street by the heirs of the Theodore Abercrombie estate. The work has been delayed for a few weeks because of the failure of sills to reach Rushville.

Farmers and Bombs

The day which revealed to us the ramifications of the merry little bomb plot, or plots—they covered a large number of districts—will soon be a month old. But we should not let it be completely obliterated from our memories.

It was in Paterson, N. J., that one of the bombs exploded on that fateful Monday night, and in the same city an abundant collection of revolutionary pamphlets has been unearthed. One of them has been printed in exceptionally large quantities, and is addressed to the "workers, farmers, soldiers and sailors."

It starts with the usual Jeremiah about the tribulations of the proletariat, and then it continues:

"If in your factory or mine, farm or village, there is no anarchist soviet yet, organize one at once."

"Organize anarchist commune soviets and organize them secretly: as soon as our members grow large enough making us so strong as to assert ourselves in the open, we will do it—by beginning to take over the

Sap and Salt

By BERT MOSES

Love is life and hate is death.
Take your choice.

Many people want just the opposite of what they've got.

Who will be the first man to mortgage his auto to make a payment on a house?

Disgrace is the penalty of being found out, yet nearly everybody runs the risk.

Hez Heck says: "Poison ivy is like vice—it won't bother you if you keep away from it."

Some work their discontent into grouches, while others use it as a spur to greater endeavor.

The farmer who allows two jimson weeds to grow where only one grew before will never lift the mortgage on his land.

factories, mines and farms of America."

It is addressed to the farmers, and urges the farmers to seize the farms. Whom from? Most farmers took hold when they obtained possession of their farms.

But the radicals don't know this. They don't know very much about the status of the American farmer. They don't know much about America—which is scarcely to be expected, as hardly any of them are citizens.

If they were to take control of the farms, what would they do with them? Imagine a group of them trying to run a thrashing machine. They wouldn't know the blower from the knives. They would be like the man who wanted to start a tea plantation, but complained that the man who sold him the seeds gave him the wrong stuff and it came up geraniums.

The trouble with the bomb throw-

MAZOLA

The Perfect Oil for Cooking and Salads

EVERY housewife should know the true cooking Qualities and astonishing Economy of Mazola. Compare the price of Mazola with the present price of butter, lard and other shortenings.

Use Mazola for shortening your next cake or pie crust. Follow your usual recipe but use $\frac{1}{4}$ to $\frac{1}{2}$ less Mazola than butter. You will find that your recipe comes out better, richer, tastier than it ever did before—and perfect digestibility always follows.

Not only Equal to Butter for cooking and Better than Olive Oil for salads but you buy it at half the price of either. Better, more Wholesome and Economical than lard or compounds.

FREE Every housewife should have a copy of the interesting 68-page Corn Products Cook Book. Beautifully illustrated. It is free. Write us today for it.

SCIENTISTS TO DISCUSS QUAKES

Four Hundred Meet For Convention of Pacific Division for Advancement of Science.

MAKE SURVEY OF RESOURCES

Excursions to Fossil Deposits, Including Study of Sealife, Have Been Arranged.

(By United Press.)

Pasadena, Cal., June 19—To discuss scientific data with a view to improving conditions on the Pacific Coast, including an exhaustive survey of the resources of the North Pacific Ocean, more than four hundred scientists are here for the convention of the Pacific Division of the American Association for the Advancement of Science, which opened today and will continue four days.

Cause of earthquakes and means of protection against them will be discussed by Dr. S. D. Townley, Stanford University. Other speakers are:

Dr. William Ritter, director Scripps Institute for Biological Research; Dr. Barton W. Everann, California Academy of Sciences; Dr. Joseph Grinnell, University of California; Prof. John F. Cobb, University of Washington, director of the College of Fisheries; E. L. Michael and G. T. McEwen, Scripps Institution for Biological Research; E. A. Beals, U. S. Weather Bureau; George Londermilk, professor of Geology, University of California; Dr. T. D. McDougall, director of the research department, Carnegie Institute.

Excursions to fossil deposits, Catalina Island, including study of sea-life from glass-bottomed boats, have been arranged. The new 100-mach reflecting telescope at Mt. Wilson Observatory will be ready for use during the session.

Besides the main convention, there will be a series of lectures, and a number of excursions.

logical, geographical, seismological, naturalist and ecological societies.

Systematic exploration of the northern reaches of the Pacific Ocean may be the outgrowth of this convention. Such plans will constitute one of the main subjects under discussion.

PARIS—Four hundred taxi-side-cars will ply for hire on Paris streets; minimum fare ten cents, or six cents a kilometer by distance.

Rheumatism Leaves You Forever.

Deep Seated Uric Acid Deposits Are Dissolved and the Rheumatic Poison Starts to Leave the System Within Twenty-four Hours.

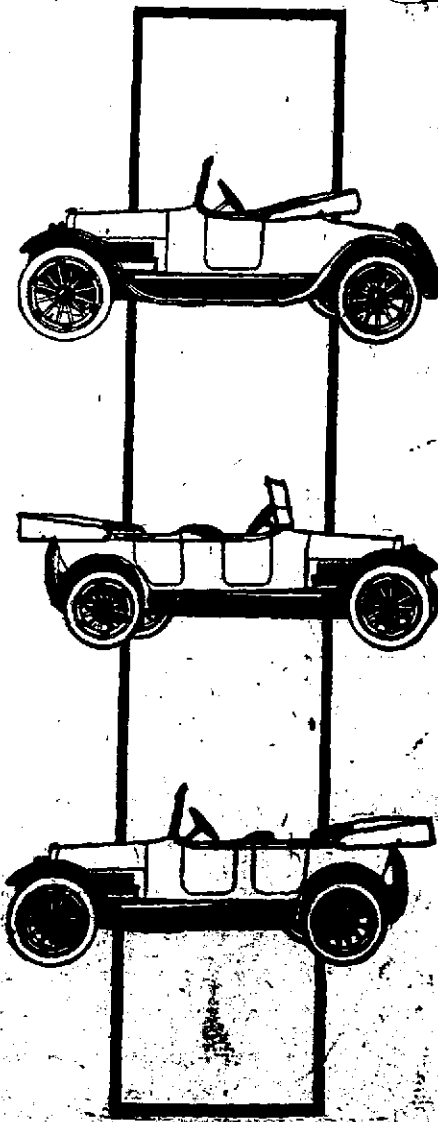

Every druggist in this county is authorized to say to every rheumatic sufferer in this vicinity that if two bottles of Allenru, the sure conqueror of rheumatism, does not stop all agony, reduce swollen joints and do away with even the slightest twinge of rheumatic pain, he will gladly return your money without comment.

Allenru has been tried and tested for years, and really marvelous results have been accomplished in the most severe cases where the suffering and agony was intense and pitious and where the patient was helpless.

Allenru relieves at once. Immediately after you start to take it the good work begins. It searches out the uric acid deposits, dissolves the secretions and drives rheumatic poison out of the body through the kidneys and bowels.

It's marvelous how quickly it acts. Blessed relief often comes in two days, and even in cases where the suffering is most painful all traces disappear in a few days.

Mr. James H. Allen, the discoverer of Allenru, who for many years suffered the torments of acute rheumatism, desires all sufferers to know that he has given a cent of any one's money when Allenru decisively conquers this worst of all diseases, and he has instructed all druggists to guarantee it in every case.

NEARLY a half million Buick Valve-in-Head Motorcars are in service—and the most remarkable phase of that fact is the unusual length of each Buick car's service.

There is no magic about the long life of Buick cars. Their owners simply get from them the life, the stamina that is built into each one of them.

Today motorists accept Buick longevity for its character of construction and individual endurance.

Bring your car to a first-class washer and have it cleaned up.

SUPERINTENDENTS MEETING

State Sup't. L. N. Hines Will Address the Association.

Indianapolis, Ind., June 19—The Indiana School Superintendents' Association met here today for its sixty-second semi-annual conference. The meeting will close Friday.

State Superintendent L. N. Hines will address the superintendents on "Making the Office of State Superintendent Useful to the Schools".

School problems will be discussed by well known educators. Edgar N. Haskins, Vincennes, is president of the association.

Amusements

Mary Pickford at Princess

Once before has Mary Pickford played a Scotch role in "The Pride of the Clan," one of her most popular Artercraft pictures. In "Captain Kidd, Jr." her new photoplay which is being shown at the Princess theatre tonight and tomorrow, she is again Scotch, but transplanted from the heather to somewhere in America, as the granddaughter of Angus MacTavish, keeper of a curio and bookshop where the buried treasure, which is the basic idea of the story, is first noised about.

And Mary is said to be the most winsome, close-fisted, lovable and at the same time, most irritating little person you would find from one coast to the other. She keeps Jip Geason, engaged in writing a novel, dangling till the very end. And she is a demon at a trade—so that when the book with the secret plan of the buried treasure appears, she is one of the foremost in arranging for

An Internal Treatment For Piles (Hemorrhoids)

Gives Absolute Relief From All Pain and Suffering. Has Never Failed. Guaranteed.

Many people have become despondent because they have been led to believe that their case was hopeless and that there was no remedy for their case.

Go to your druggist and get an original bottle of Miro Pile Remedy, the discovery of a clever Ohio chemist, that taken internally passes unchanged through the stomach and intestines, and thus reaches the source of the trouble, where by its soothing, healing antiseptic action, it first allays and then by direct contact with the ulcers and piles causes them to heal and disappear forever.

It's positively marvelous how speedily it acts. Blessed relief often comes in two or three days, even in cases that have resisted all previously known treatments really wonderful results have been accomplished. It is one of the wonderful discoveries of recent years and anyone who is disappointed with its use can have their money refunded.

All pharmacists dispense Miro or can get it for you on short notice. Surely it is worth the little trouble to obtain to be rid of piles forever.

IMPORTANT—What is known as itching piles are not piles in the true sense of the word, although this condition may accompany a true case of piles. For this condition Miro Pile Ointment has been prepared as in such cases it is not necessary to take the internal prescription.—(Adv.)

the search which takes them to Calhoun Center—and thereafter the tale is one of the most engrossing amusing and whimsical character.

On the stage, this play by Rida Johnson Young was a great success. In the film with Mary Pickford in the lead it seems destined to create even a greater furor, to judge by the reports emanating from the studio where it was recently completed by William D. Taylor. Frances Marion adapted the comedy to the screen.

Anita Hanson at Mystic

Anita Hanson will be at the Mystic theater tonight in "The Sea Flower" and a Lyons and Moran comedy, "Chicken a La King," will also be shown. Priscilla Dean is coming tomorrow in "The Silk-Lined Burglar." It is a typical Priscilla Dean vehicle—swift in action, smart in setting, with plentiful opportunities for the star's varied emotional acting.

Miss Dean is an exception to the general rule of motion picture celebrities in this respect—her rise to prominence was the result of a steady improvement in her work rather than to extravagant advertising by her employer, in this case the Universal Film Manufacturing Co. A succession of plays that attracted more than passing commendation brought Miss Dean rapidly to the forefront of screen actresses. Of these "The Wildest of Paris," "The Wicked Darling," "The Brazen Beauty" and "Kiss or Kill" will be remembered by theatregoers.

"The Silk-Lined Burglar" is a crook play de luxe, based on one of the famous Boston Blackie stories in the Red Book Magazine written by Jack Boyle. In the cast are Ashton Dearholt, Lillian West, Sam Appel and Fred Kelsey. Jack Dillon directed.

"The silk-lined burglar" is Miss Dean, herself. For a particular reason she must have the contents of a certain safe. In this extremity she advertises for a reliable safecracker, and the engaging Boston Blackie applies for the job.

The first oil company in Kentucky of which the stockholders are all women, has been organized at Owensboro.

B. L. Trabue has sold his property in North Perkins street to Frank Catt, county surveyor, who now lives there.

WATTE

this is a cheery sort of rug for the bedroom

because it is bright and in good taste. It is easy to look at and very durable. Comes in many harmonious color combinations to fit with your decorations and furniture.

Comfortable under foot, stays flat on the floor and doesn't scuff up.

Made by American workers from tough, genuine wire grass which is twisted firm and smooth, then woven into many beautiful patterns. Bears the label "Watte" as a mark of its genuineness and quality.

Give attention to your bedroom today. Let it be your room of rest. We'll help you in the selection of suitable furnishings.

E. R. CASADY.

Mrs. Channey Duncan will be hostess for the Five Hundred club tomorrow afternoon at her home in North Perkins street.

Mrs. Louis Mauzy entertained twelve guests with a Bridge party at her home in North Perkins street last night in honor of Miss Irene Crum of Ogden, Utah, the house guest of Miss Frances Frazee.

Mrs. A. L. Aldridge was hostess for the Wednesday Afternoon Sewing club yesterday afternoon at her home in North Perkins street. Various kinds of needlework furnished the diversion for the afternoon and at a late hour a delicious luncheon was served.

Mrs. Laura Alexander entertained the members of the Loyal Women's class Tuesday evening at her home in North Main street. The guests enjoyed an interesting program after which a short business session was held. The hostess served light refreshments at the close of the evening.

Miss Zeola Merrill, daughter of Mr. and Mrs. William Merrill, and Laverne H. Lower, son of Mrs. Miranda Lower, both living southwest of the city, were quietly married at the Methodist church parsonage yesterday afternoon at three o'clock.

GOT GOOD RESULTS

This honest, straight forward letter from a woman who has suffered should be heeded by all afflicted with backache, rheumatic pains, sore muscles, awful tired feeling and other symptoms of kidney and bladder trouble: "I have got such good results from Foley Kidney Pills that I can sleep much better and the pain in my back and sides is a good lot better. I am going to keep on taking them." Mrs. Chas. Gray, 270 6th St. Detroit, Mich. F. B. Johnson, Adv. 2

by the Rev. C. S. Black. The only attendants were the Misses Cecil Lower and Tinsel Merrill. The young couple will reside on a farm in that vicinity.

Mrs. Bert Mattox entertained the members of the Rebekah Crochet club yesterday afternoon at her home in East Fifth street. After spending the afternoon over crochet work, the hostess served refreshments of strawberries, ice cream and cake. The club will entertain the members of the W. R. C. penny social at the next meeting, July 1, at the home of Mrs. Dora Davis, northwest of the city. She will be assisted by Mrs. Aroria Lucas.

The newly elected officers of the Epworth League of the M. E. church held their first meeting of the year last night at the home of Mrs. Oscar Eden in North Sexton street. The cabinet appointed a committee to find out the number of members who are planning to attend the Convention of Epworth Leagues to be held at Bethany Park, Brooklyn, Ind., in two weeks. After the business session light refreshments were served.

A short program was given at the meeting of the Woman's Missionary society of the First United Presbyterian church, held at the home of Miss Mary Fisher in West Ninth street yesterday afternoon. Miss Fisher, who is president of the society, was in charge of the meeting and she gave a report of the convention of the Woman's Presbytery held in Bloomington, Ind., the June 3 and 4. After the program a short business session was held.

DELEGATES ALL FAVOR REJECTION

Continued from Page One

Berlin indicated a division among the Germans over acceptance of the new terms. The peace delegates are said to be unanimously against the treaty. The cabinet is said to be split while the national assembly apparently favors signing. The press also is divided.

Information obtained and sent out by correspondents of newspapers in various parts of Germany continues to indicate a determination in the higher official circles to reject the treaty. A recommendation submitted by the peace delegation advised the cabinet to refuse to sign. Experts connected with the German mission also oppose acceptance of the terms, these press reports assert. Count von Brockdorff-Rantzau and other members of the delegation will resign, it is said, unless their view is adopted.

Although government spokesmen have asserted that they intend to stick to their jobs, talk of the overthrow of the present regime and the formation of a government that will sign the treaty continues. Fear of Bolshevism and chaos have been given as strong reasons for hesitation of the Ebert government in rejecting the terms, but the Vossische Zeitung, in copies received here, says a plan is being considered for

RUSHVILLE, INDIANA.

"Company's Coming!"

The rugs are a sight. No time to don cleaning togs, to broom-sweep and then dust afterwards. But plenty of time to just run your Hoover over—because The Hoover cleans dustlessly and quickly without musing your "Sunday best."

Each easy stroke of The Hoover means: a beating out of buried dirt—a sweeping up of all litter—the straightening of the nap—the brightening of bedimmed colorings—in addition to an electric vacuum cleaning.

JUST RUN YOUR
Hoover

IT BEATS... AS IT SWEEPS AS IT CLEANS

The Hoover's the best. The most widely bought. Made by the world's largest makers with eleven years' success to their credit.

See The Hoover flatter a carpeting more than 1,000 times each minute upon an air cushion thereby loosening and shaking out the innermost dirt.

HOUSE PASSES WIRE BILL

Would Return Lines to Owners at
End of Month Act is Approved

(By United Press.)

Washington, June 19—The house today unanimously passed the bill returning telegraph and telephone lines to their owners.

The bill now goes to conference. The house amended the senate bill by setting the date for return of the wires as the last day of the month in which the act is approved, and allow continuance for not more than six months of the high telephone rates put into effect by the postmaster general. The senate set 90 days as the time for return.

WANTED

EVERY HOG RAISER IN RUSH COUNTY, to know that we have plenty of pure potent Therman serum at any time you want it. Los Angeles-Yosemite Economy Run Won by Franklin Car

Big Western Event Cleaned Up By Hamlin Entrant, With Turner of Pasadena At Wheel.

A series 9-B Franklin, entered by Ralph Hamlin, Franklin dealer at Los Angeles, Cal., and driven by Stanley Turner, Franklin man at Pasadena, won a sweeping victory in the third annual economy run from Los Angeles to the Yosemite on Friday and Saturday, May 30 and 31. The Franklin won every first place on the program from a crowded field, captured three cups and enough honors to last Ralph Hamlin and his organization the rest of the summer.

The Franklin's first victory came in its own class of cars costing \$2,000 or more. It was expected that the Franklin would capture this prize, but that it could win the sweepstakes cup for the best all-around showing and the Automobile Club cup for the best economy on the weight-miles basis, was a shock to the other entrants, although not to the Franklin representatives.

The winning of the cup for a ten-mile victory utterly confounded the opponents of the Franklin who have claimed in the past the Franklin can win only when it carries the lightest weight. So the ten-mile per gallon contest was devised to equalize every car according to load. The Franklin ran away with the honors just the same with forty-nine and nine-tenths ton miles per gallon to its credit.

Customary Franklin performance was reported in other ways. The car averaged 28.6 miles per gallon of gasoline, traveling the 374.5 miles of the race on 13 gallons.

To Franklin men, it is only one more victory in the mounting series that is steadily making the economy contest a thing of the past, with the only contest that for second place. To other manufacturers, it must be disconcerting to feel that one car ALWAYS demonstrates its superiority.

For Itching Torture

There is one remedy that seldom fails to stop itching torture and relieve skin irritation and that makes the skin soft, clear and healthy.

Any druggist can supply you with Zemo, which generally overcomes all skin diseases. Eczema, itch, pimples, rashes, blackheads in most cases give way to Zemo. Frequently, minor blemishes disappear over night. Itching usually stops instantly. Zemo is a safe, antiseptic liquid, clean, easy to use and dependable. It costs only 35c; an extra large bottle, \$1.00. It will not stain, is not greasy or sticky and is positively safe for tender, sensitive skins.

Your Troubles Never Happen in a Hot Spot Chalmers

A STRANGER wrote the other day he had taken his Hot Spot Chalmers to a garage for the first time since he bought it—and he had run it 22,121 miles! "It didn't need a thing except one three-minute adjustment," he added.

We get many letters like this; and we assign the lack of trouble in a Chalmers largely to Hot Spot and Ram's-horn.

Hot Spot "cracks up" the raw gas, converts it into a fine vapor that offers excellent combustion qualities.

Ram's-horn rushes it with a rapidity that is lightning-like to the cylinders, and when the spark plugs perform their function—you get power results beyond belief.

Not only power, but an amazing freedom from engine knocks, overheated engine, nerve-wracking vibration, uncomfortable friction.

Many cars of today, still equipped with old-fashioned engines, permit raw gas to descend past the pistons into the crank case; and then follows trouble in more ways than one.

In this heavy-fuel-burning Chalmers of today your troubles never happen.

Come see this Chalmers which so many persons now credit with being one of the few great cars of the world.

The Hog Feed That Grows and Finishes Them

GREATEST GAINS
LOWEST COSTS

GUARANTEED ANALYSIS
Protein.....14% Fibre.....9.5%
Fat.....3.5% Carbohydrates 51%
Bone Bone.....3.5%

With pure blood meal & milk albumen

INGREDIENTS: Pure Blood Meal, Milk Albumen, Corn Feed Meal, Wheat Middlings, Old Process Linseed Oil Meal, Ground Barley, Ground Oats, Bone Meal, Ground and Bolted Wheat, Barley and Kafir Screenings and 1 of 1% Salt.

MONEY MAKING FACTS

Our latest analysis exceeds the above guarantee. We are now putting the Milk Albumen in this feed which reduces the fibre and increases the fat and protein. Milk Albumen is pure, dried, sweet milk. It is 50 per cent protein. This keeps the brood sows in good condition; grows young pigs; builds the frame that will carry the weight and puts on the finishing fat in a short time at a low cost. Once tried, always used. A trial order will convince you. Drop in and look at a sample and take home a few bags for a trial. Let the hog be the judge—it will give you the correct verdict and substantiate our claims.

SECOND DAY OF CONVENTION

Elks Business Session to be Followed by Picnic at Club

(By United Press.)

Ft. Wayne, Ind., June 19.—The second day of the annual convention of Indiana Elks brought out a lively program. After a business session in the forenoon, Elks were to hold a picnic at the country club.

The afternoon program included a boxing match between Frankie Mason, the American flyweight and Frankie Jummatti, Chicago. The bout was to go ten rounds. A sweepstakes shoot with prizes for three event was to be held at the Elks Gun club this afternoon.

BRINGS HOME TWO "DRESSED FLEAS"

Continued from Page One
and label it the largest and smallest trophies captured in the war by himself.

Major Westhafer has been recommended for the rank of lieutenant-colonel and will probably retire with that rank. He will fill his old position as a general practitioner of medicine at the Newcastle clinic until the return of Drs. Blati and MacDonald and he will then specialize on the X-ray and Urology.

Mrs. Westhafer has accompanied her husband to every camp and hospital in the United States where he has been stationed and has had many wonderful experiences.
